

Gumlu State School

NUMBER OF STUDENTS: 20

LOCATION: Gumlu, Qld

ABOUT US: Established in 1913, Gumlu State School is a small remote school with country values located on the highway between Bowen and Ayr, within the Whitsunday region.

At Gumlu we have a teaching Principal, Thomas Harrington, who is passionate about delivering deep quality education with a focus on hands-on learning. This is achieved with the support of a very experienced part time teacher and multiple Teacher Aides.

The Gumlu community and stakeholders are all committed to delivering personalised journeys to ensure positive outcomes in a supportive and caring environment. At Gumlu we strive to deliver extra-curricular activities. Last year this included: gold mine tours, Mount Carlton, pioneer trail experiences in outback Winton, paddock to plate learning and aquaponics just to name a few.

With the assistance of Books in Homes, supported by Evolution Mining, the Program guarantees that Gumlu students regularly choose high quality books that in return support the best possible start to their education with a genuine focus on reading for life.

At Gumlu, we, hand on heart believe our students are "Living the Dream".
