

# Cloncurry State School P-12

**NUMBER OF STUDENTS:** 290

**LOCATION:** Cloncurry, QLD

**ABOUT US:** Cloncurry State School P-12 is a Prep to Year 12 school located in the mineral-rich province of North-West Queensland, approximately 800kms west of Townsville and 121kms east of Mount Isa. The school lies at the centre of our town both geographically and socially.

Our students and staff enjoy the country atmosphere offered by smaller towns, as well as the natural beauty of the Australian Outback and surrounds. We strive to provide "Excellence in Education in the Outback" across all aspects of learning, including academic, sporting, musical and cultural activities.

The Books in Homes program is possible due to the amazing generosity of our sponsor, Evolution Mining. As such we can provide our students with essential access to books of their choice at home. This ensures crucial literacy engagement, the development of reading skills needed for lifelong achievement, and of course, a love of reading. Thank you immensely for your continued support, Evolution Mining.
